

Blackmagic Pocket Cinema Camera

Billed as "the world's most compact Super 16 digital film camera," the Blackmagic Pocket Cinema Camera features a magnesium alloy chassis, Super 16 sensor size, 13 stops of wide dynamic range, full HD video recording (lossless compressed CinemaDNG RAW and Apple ProRes), and built-in stereo mic.

It also has an integrated 3.5-inch LCD (800 x 480 resolution) for accessing menus and playing back video. Invested in a bunch of third-party stuff? Not a problem. It comes with interchangeable optics (Micro Four Thirds lens mount) and is designed for compatibility with many existing accessories in the market.

Seamaster Planet Ocean Chrono

The Seamaster Planet Ocean Chrono is a superbly finished and designed watch. Everything part has been designed with attention for details and the whole watch looks attractive, sporty and robust. Exactly what you would want from a dive watch with chronograph. The domed sapphire crystal is anti-reflective coated on both sides and even the case-back is made of a sapphire crystal so the magnificent in-house caliber 9300 is visible.

FrozzyPack Lunchbox

The FrozzyPack has a trick up its sleeve: it can keep your food chilled and fresh for up to seven hours all on its own. The FrozzyPack Lunchbox doesn't come with its own refrigeration unit, of course. Instead, it uses a lid made with a cooling gel (non-toxic, since it's coming into contact with food), similar to the ones they use in that Chili-Puck canned beverage cooler.

Soundhound App

Soundhound's basic function is simple: when there's music playing, whip out your phone, start Soundhound and it will tell you the name of the song, along with the artist, lyrics and just about any other information related to it. So you don't have to try for hours to remember what that song is called you like, just let the app find it.

Xbox One

Microsoft has finally unveiled the device's next-gen successor. Called the Xbox One, the new home console goes beyond gaming, positioning itself as the quintessential sidekick for the large-screen HDTV in your living room. According to Microsoft, reps, the Xbox One will be available "later this year", so the console should come right in time for the holidays.

Airocide Air Purifier

Unlike other air purifiers, these ones are based off technology that NASA used to slow down the process of fruits and vegetables ripening too quickly during space journeys by scrubbing the air of ethylene. That tech has finally been tweaked for consumer use in the form of this rectangular device that looks more like an audio speaker than a utilitarian air-cleaning contraption. It measures 6.9 x 18.7 x 6 inches (w x l x d) and weighs 9 pounds.
